

MARKING SHEET FOR STUDENT'S WORK

Student Name:	KAINAT POLANI
Course:	Diploma in Diet and Nutrition (Level 4)
Student Number:	1118
Assignment:	08

UNDERSTANDING YOUR RESULT

The course is made up of units, which contain assignments. To complete each unit your work is assessed by your tutor along the way. This ongoing assessment allows you to analyse and improve your performance throughout your course. There are set learning objectives for each unit. All Learning objectives **MUST** be passed in order to progress. If the student has achieved less than 40% marks in the assignment it means that the learning objectives have not met and the student will be required to resubmit the work.

UNIT RESULTS ARE GRADED AS:

Pass (P)

Merit (M)

Distinction (D)

Re Submit (R)

Re submit	Pass	Merit	Distinction
0-39%	40-59%	60-69%	70+ %

If the work you produce doesn't meet the grading criteria for a Pass grade, you will be awarded R, which means 'Re submit'.

QUESTION COMMENTS

Question	Comments
Question 1	You have clearly defined the food allergy and have included relevant examples. In your answer to part (ii) of this question you have covered very good points to differentiate the food allergy and food intolerance. Moving on to the next question your answer is correct but little bit more detail was required about three symptoms of food allergy. In your answer to question (iv) again your answer is logical but needed more explanation about three symptoms of food intolerance. In part (v, vi) there is conceptual clarity in the answers. Moving on part(vii) your answer is too brief, part(viii) is a brilliant answer. You have beautifully explained how does our immune system protect us, there are again excellent answers for parts(ix,x).

OVERALL GRADING:

Date Graded:	10.12.2014
Overall Result:	MERIT

Comments:	Overall, your performance is good.
