

## MARKING SHEET FOR STUDENT'S WORK

|                        |                                              |
|------------------------|----------------------------------------------|
| <b>Student Name:</b>   | Vismantas Mikstas                            |
| <b>Course:</b>         | Diploma in Construction Management (Level 4) |
| <b>Student Number:</b> | 1302                                         |
| <b>Assignment:</b>     | 03                                           |

## UNDERSTANDING YOUR RESULT

The course is made up of units, which contain assignments. To complete each unit your work is assessed by your tutor along the way. This ongoing assessment allows you to analyse and improve your performance throughout your course. There are set learning objectives for each unit. All Learning objectives **MUST** be passed in order to progress. If the student has achieved less than 40% marks in the assignment it means that the learning objectives have not met and the student will be required to resubmit the work.

### UNIT RESULTS ARE GRADED AS:

Pass (P)

Merit (M)

Distinction (D)

Re Submit (R)

| Re submit | Pass   | Merit  | Distinction |
|-----------|--------|--------|-------------|
| 0-39%     | 40-59% | 60-69% | 70+ %       |

If the work you produce doesn't meet the grading criteria for a Pass grade, you will be awarded R, which means 'Re submit'.

### QUESTION COMMENTS

| Question          | Comments                                                                                                                                                                            |
|-------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Question 1</b> | A brilliant presentation of your ideas for estimates, bill of quantities, preparing estimates, projecting the budget and admin approval etc. Comprehensive and thorough. Well done. |
| <b>Question 2</b> | Excellent discussion about process of estimating a project i.e. material rate, labour rate and all indirect expenses involved in the project.                                       |
| <b>Question 3</b> | The procedure for estimating a project explained comprehensively.                                                                                                                   |

### OVERALL GRADING:

|                        |                        |
|------------------------|------------------------|
| <b>Date Graded:</b>    | 24.11.2014             |
| <b>Overall Result:</b> | <b>DISTINCTION</b>     |
| <b>Comments:</b>       | Brilliant performance. |

|                           |       |
