ORACLE®

**JD Edwards EnterpriseOne
Transportation Management System**

Safe Harbor Statement

The following is intended to outline our general product direction. It is intended for information purposes only, and may not be incorporated into any contract. It is not a commitment to deliver any material, code, or functionality, and should not be relied upon in making purchasing decisions.
The development, release, and timing of any features or functionality described for Oracle's products remains at the sole discretion of Oracle.

Agenda

- Business Challenges
- TMS at a Glance
- Benefits
- TMS Activities
- Summary

Business Challenges
How do I?

- Drive sustainable savings
  - Do more with fewer resources
  - Optimize transportation costing via flexible rating/routing
  - Ensure the most efficient, balanced loads (TL vs. LTL) with routing tools
- Improve performance execution
  - Ensure on-time deliveries
  - Leverage transportation best practices

Transportation Management System (TMS) at a Glance

Inbound

Internal Processing

Outbound

- Receive/Putaway
- Purchases
