3. Describe the processes involved in project integration management. (5)

### Activity

Identify a project that you would like to carry out in your particular field. It could be either a consultation project or a change project. (6)

Factors to consider in selecting an appropriate project:

- What problems and opportunities are you facing at work?
- What processes in your work area are creating barriers or impeding the quality of the services or products you and your department provide to others?
- What aspects of your work are you particularly interested in?
